

Lyrics Destroy written by Miss Manolita

Strophe 1

Stand up with the morning sun
you send to me a message too much long
you are wrong

You go to bed with me so quick
and you think that i forget your shit
you are sick

When i tried to be with you
for me is sure you can not be true
lie of you

Refrain

For me the pain which you made
to me destroyed the love inside me
what i have searched in the citychurch
after my work
i don't know what i have searched

Strophe 2

You walk alone in the city night
and i am no longer on your side
because you lied

Now in your home i am out
because i was never Proud
you make me fault

I have dreamed we were at home
and became a baby, a wonderful son
but you are wrong

Refrain

For me the pain which you made
to me destroyed the love inside me
what i have searched in the citychurch
after my work
i don't know what i have searched

For me the pain which you made
to me destroyed the love inside me
what i have searched in the citychurch
after my work
i don't know what i have searched

Der Zug nach Hamburg fährt auf Gleis acht. Bitte einsteigen.

Refrain

For me the pain which you made
to me destroyed the love inside me
what i have searched in the citychurch
after my work
i don't know what i have searched

For me the pain which you made
to me destroyed the love inside me
what i have searched in the citychurch
after my work
i don't know what i have searched

For me the pain which you made
to me destroyed the love inside me
what i have searched in the citychurch
after my work
i don't know what i have searched

Change for yourself
